## INTRODUCTION

Innovative, task-driven professional with +8 years of experience in web development across diverse industries. Equipped with a record of success in consistently identifying and providing the technological needs of companies through ingenious innovation. Proficient in developing databases, creating user interfaces, writing and testing codes, troubleshooting simple/complex issues, and implementing new features based on user feedback.

## EXPERIENCE

### Full Stack Developer

#### TopHap

07/2019 - 11/2022

- Developed front end with React.js, Implemented Redux data structure, and made APIs calls with redux-thunk.
- Built 100 + components in React using NodeJS asynchronous methods.
- Redesigned our website--increasing visitor clicks by 37% and customer refers by 12%
- Assisted in developing server-based Node.js & AWS software by providing inputs and insights, acquiring a 15% increase in the quality of overall work.
- Implemented search functionality using Elasticsearch-decreasing overall service latency by 25.6%.
- Tested 100% of code and applications using testing techniques such as unit testing and integration testing.
- Collaborated with 8 developers and 10+ other team members to establish objectives.

### Senior Frontend Developer

#### True Prodigy Tech Solution

04/2017 - 06/2019

- Wrote code following industry standards and appropriate design patterns for 7 projects.
- Made an architecture design by using Redux and Redux-Saga for state management.
- Delivered user-friendly interfaces (responsive and pixel-perfect pages) to the end users.
- Developed statically typed routing API for React frontend.
- Tested 100% of code and applications using testing techniques such as unit testing and integration testing.

### Front End Developer

#### Systematix Infotech Pvt

10/2015 - 03/2017

- Optimized a front-end app performance to 80% efficiency using profilers and dubbing.
- Implemented webhooks to achieve asynchronous and real-time data communication between the server and client using the polling method and Redux-Saga.
- Used higher-order component (HOC) to implement a user authentication module to restrict users' access to certain pages.
- Implemented DynamicReports on the front-end with D3 and C3 libraries in React.

## SKILLS

JavaScript	Typescript	React JS	
Node JS	MongoDB	GraphQL	
Next JS	Redux	Vue JS	Angular
ElasticSearch	AWS	Jira	Jest
Cypress	PHP	Laravel	WordPress
HTML5	CSS3	Solidity	Web3
Git	Tool / Technology		

## EDUCATION

### Bachelor's degree

#### Lingnan University

09/2010 - 10/2014

## STRENGTHS

### Love for the Industry

Doing my job with great love and passion helps me stay motivated at all times.

### Life-long Learner

Never done learning and always seeking to improve myself. Curious about new possibilities and taking action to explore them.
